

Screw Conveyors

Australia's leading Screw Conveyor Manufacturer

For applications the delivery of powdered products into the process at set rates, [Lime Systems](#) have the ability to design and manufacture a full range of screw conveyors for bulk materials with variations for mixing, blending, heating, cooling or drying as required. Our screw conveyor units can be manufactured in mild steel, stainless steel or with abrasion resistant components to suit the application.

All screws are of heavy duty, mining industry construction with specialised shaft sealing, grease purged labyrinths and outboard mounted ball bearings. Lime Systems – Bulk Storage Solutions incorporate best in class drive units in all units we manufacture.

Fully Customised Screw Conveyor Systems

Lime Systems – Bulk Storage Solutions can tailor screw conveyor designs to your specialised needs. Inlet and discharge designs are available for hazardous and dusty material applications.

[Contact us](#) for your tailored screw conveyor needs.

Screw conveyors are a versatile and cost-effective solution for the transportation of bulk materials in many industries. At Lime Systems, we design and manufacture screw conveyors that are specifically tailored to meet the requirements of each customer. Our screw conveyors are made from high-quality materials, including stainless steel, to ensure durability and reliability. We offer a range of sizes and configurations, from small screw conveyors for laboratory use to large-scale conveyors for heavy-duty applications.

Lime Systems screw conveyors are designed with advanced features, including variable speed drives and flexible shaft couplings, which ensure smooth and efficient operation. We offer a range of screw designs, including helicoid, sectional, and ribbon screws, to handle a range of materials, including powders, granules, and flakes. Our screw conveyors can be used for a range of applications, including material handling, dosing, and mixing. We can also provide custom solutions, including specialized screw designs, to meet specific customer requirements. With our extensive experience in bulk handling systems, we can provide reliable and cost-effective solutions for all your screw conveyor needs.
